

Imagine the crisp freshness of purified air. It's a reality. The innovative Jupita Air Purifier cleans 99.97% of the air in a 360 square feet room. Smartphone app controlled. Durable, yet attractive. Its whisper-quiet fan creates strong airflow. The unit's washable pre-filter traps pet hair and dust. The HEPA filter captures smaller particles of mold spores, allergens and others, down to the 0.3 microns size. The carbon filter eliminates pet odors and cigarette smoke efficiently. Filters clean for 8-10 months. Breathe healthy today.
